

A NICE SMILE MAKES A GOOD
FIRST IMPRESSION.
IT ALSO GIVES SOME A
SECOND CHANCE.

ADVANCE PRACTICE #1:
DRS. RAMIN TABIB & ELISA MELLO
NEW YORK, NY

Drs. Ramin Tabib and Elisa Mello understand the transforming power of a smile. As cosmetic dental surgeons and owners of NYC Smile Design, they help give people beautiful teeth every day. But for some patients - the homeless or unemployed - a restored smile might help them restore much more. Dr. Mello and Dr. Tabib participate in programs like *Smiles for Success* and the

Doe Fund, for which they provide free dental work to help these patients repair their teeth - so they can repair their lives. After treatment they can more confidently take the first steps toward reentering the workforce - and who wouldn't smile about that? Dr. Mello and Dr. Tabib help advance people's lives and fortunes. That's why we call NYC Smile Design an Advance Practice.

THERE ARE MANY WAYS TO BE AN
ADVANCE PRACTICE.
ONE WAY IS TO USE
ADVANCED FINANCING.

Advance your patients. Don't let cost stand between them and the treatment you recommend. With no interest payment options and minimum credit lines starting at \$5000, patients can overcome most financial barriers and select the best care. **Advance your practice.** We can help you turn more consultations into treatments. We offer innovative tools to make case presentation and managing the process

easier than ever, including our customized payment options worksheet, instant credit decisioning, a best-in-class online reporting system and a live call center to answer all your questions. With the security and lending power of Chase, not only can you offer more to patients, you can treat more of them. **Call 1-888-388-7633 or visit chasehealthadvance.com.**
